### PECAN STAIN ON BIRCH AND MAPLE

**BIRCH IS SHOWN ON THE LEFT AND MAPLE IS ON THE RIGHT**

Congratulation on your selection of Koch Cabinetry for your home! This finish is quite different from our standard stain finish. Your satisfaction is important to us and we want you to be fully informed about the characteristics of Pecan Stain on Maple and Birch.

This stain choice is prone to color variations, resulting in light and dark sections in the cabinetry. The variation can be pronounced and is ideal for rustic settings. This is a feature of Pecan stain on Birch and Maple and is not considered a warranty issue.

We expect designers and dealers to share the website page that contains kitchen pictures with the Pecan stain on Birch and Maple. It is also recommended to purchase a sample door in the style, finish, and wood species that are being purchasing for the home. One sample door will not accurately portray the variance in a room with multiple cabinets, it is important to visit the website.

We strongly advise you to view images of Pecan Cabinetry by using the QR code or visiting the this website address:
